

The Raw Hair Pricing Playbook

What top raw hair brands actually charge — and what you pay as a BSP member.

Before you spend a dollar on inventory, see the exact margins waiting for you inside BeautyShare Pro.

WHY WE MADE THIS GUIDE

The math they don't show you

Most new hair entrepreneurs spend **\$3,000 to \$10,000** on inventory before they make their first sale — and then hope they picked the right lengths, textures, and bundles. Most don't.

BeautyShare Pro flips that model on its head. You launch your own branded raw hair company with **zero inventory, zero shipping, and zero guesswork**. We handle the sourcing, storing, and fulfillment. You handle the marketing and keep the profit.

But before you join, we want you to see the numbers for yourself. This guide shows our **verified wholesale prices** side-by-side with five of the biggest raw hair brands in the market — so you know exactly what you'll pay and exactly what the market will bear.

WHAT'S INSIDE

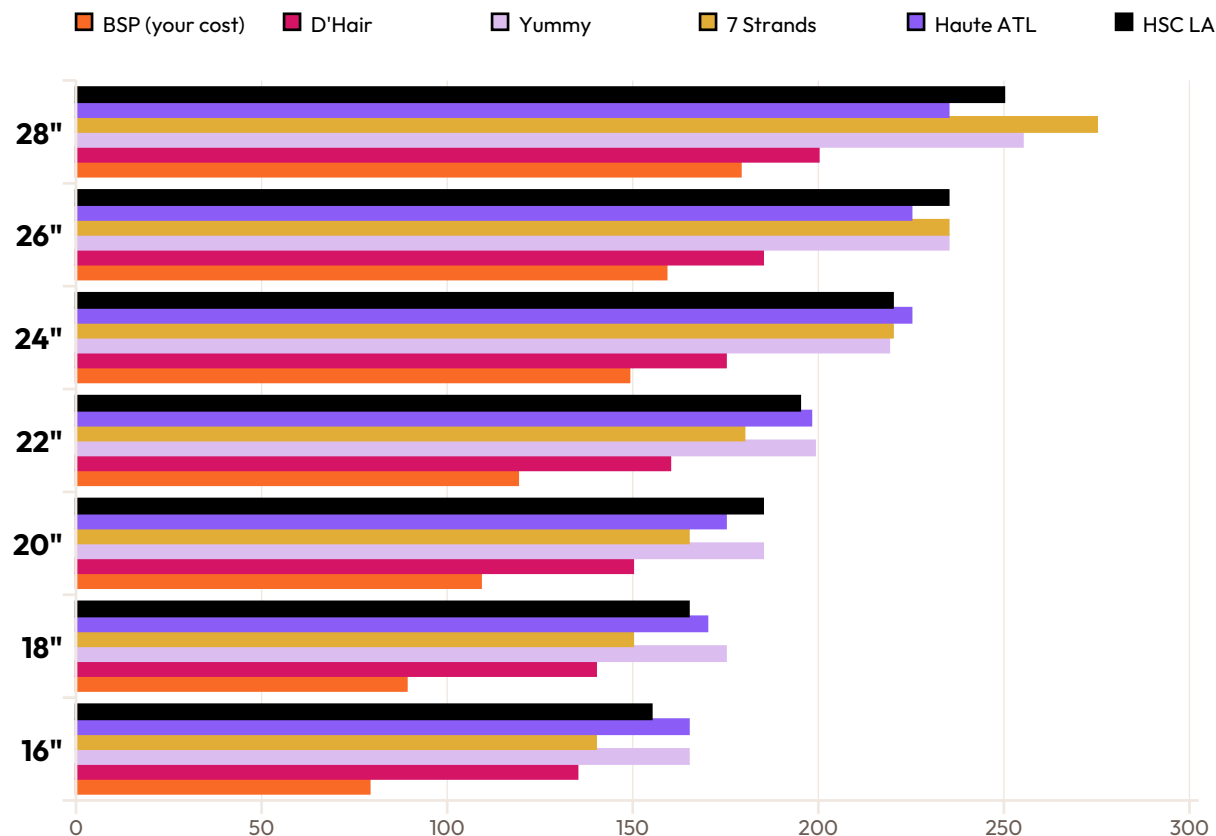

- 01 Full price comparison for Raw SEA Wavy, 16"–28"
- 02 Full price comparison for Raw Cambodian Wavy, 16"–28"
- 03 Your potential profit per bundle, pre-calculated by length
- 04 A real-world earnings scenario at 20 bundles per month
- 05 How to get instant access to wholesale pricing

A note on sourcing. BSP's hair is single-donor raw bundles — the same quality category as the premium brands on the next pages. We can offer it at wholesale because we aggregate demand from hundreds of members and buy at scale directly from our processing partners.

TEXTURE 01 • RAW SEA WAVY

BSP vs. the market

Verified retail prices from D'Hair Boutique, Yummy Extensions, 7 Strands, Haute Hair ATL, and Hair So Chic LA (April 2026).

Your opportunity: BSP's 18" SEA Wavy costs you **\$89**. Competitors charge **\$140–\$175** for the same length. Match the market and keep **up to \$86 profit** on a single bundle — no inventory risk, no shipping.

RAW SEA WAVY

Verified per-length prices

LENGTH	BSP COST	D'HAIR	YUMMY	7 STRANDS	HAUTE ATL	HSC LA	TOP SPREAD
16"	\$79	\$135	\$165	\$140	\$165	\$155	\$86
18"	\$89	\$140	\$175	\$150	\$170	\$165	\$86
20"	\$109	\$150	\$185	\$165	\$175	\$185	\$76
22"	\$119	\$160	\$199	\$180	\$198	\$195	\$80
24"	\$149	\$175	\$219	\$220	\$225	\$220	\$76
26"	\$159	\$185	\$235	\$235	\$225	\$235	\$76
28"	\$179	\$200	\$255	\$275	\$235	\$250	\$96

WHAT THE NUMBERS SAY

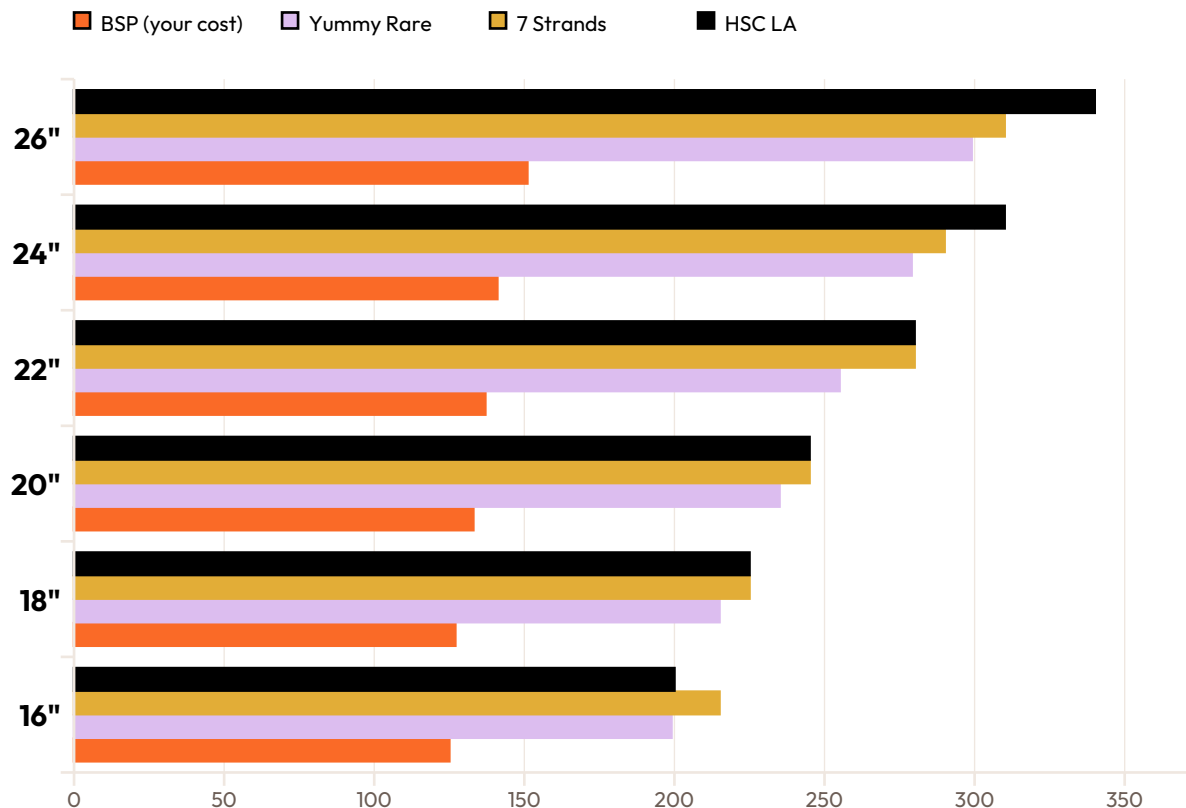

At **every length**, BSP's wholesale is \$70–\$96 below the top retail price. That's pure profit margin if you price at market — and most stylists do, because their clients expect premium pricing on premium hair.

The **28" bundle** is the real story: \$179 BSP vs. \$275 at 7 Strands. That's **\$96 per bundle**, and 28" is the length that converts bridal and installed clients the fastest.

TEXTURE 02 • RAW CAMBODIAN WAVY

BSP vs. the market

Verified retail prices from Yummy Extensions (Rare Blend), 7 Strands, and Hair So Chic LA (April 2026). D'Hair and Haute ATL do not publicly list Cambodian wavy pricing.

Your opportunity: BSP Cambodian Wavy at 24" costs you **\$141**. Hair So Chic LA charges **\$310** for the same length — that's **\$169 pure profit per bundle** if you match their price. On a 3-bundle install, that's over \$500 in your pocket from one client.

RAW CAMBODIAN WAVY

Verified per-length prices

LENGTH	BSP COST	YUMMY RARE	7 STRANDS	HSC LA	TOP SPREAD
16"	\$125	\$199	\$215	\$200	\$90
18"	\$127	\$215	\$225	\$225	\$98
20"	\$133	\$235	\$245	\$245	\$112
22"	\$137	\$255	\$280	\$280	\$143
24"	\$141	\$279	\$290	\$310	\$169
26"	\$151	\$299	\$310	\$340	\$189
28"	\$161	—	\$335	—	\$174

CAMBODIAN IS WHERE THE BIG MARGINS LIVE

Cambodian Wavy is the fastest-growing luxury category in raw hair. Because fewer brands stock it consistently, top-end retail has climbed \$20–\$40 above comparable SEA Wavy lengths.

BSP's wholesale, meanwhile, only climbs about \$30–\$50 across the full length range — which means **your spread gets bigger the longer the bundle**. At 26", your potential profit is **\$189 on a single bundle**.

THE BOTTOM LINE

What 20 bundles a month looks like

Let's run real numbers. The average BSP member who works this full-time sells **15–30 bundles per month**. Here's what 20 bundles looks like at a conservative 18"–22" mix:

TEXTURE & LENGTH	BUNDLES	YOUR COST	RETAIL	PROFIT EACH	TOTAL PROFIT
18" SEA Wavy	8	\$89	\$165	\$76	\$608
22" SEA Wavy	6	\$119	\$195	\$76	\$456
18" Cambodian Wavy	4	\$127	\$225	\$98	\$392
22" Cambodian Wavy	2	\$137	\$280	\$143	\$286
MONTHLY TOTAL	20				\$1,742

\$1,742 per month in profit — from 20 bundles, with zero inventory sitting in your closet and zero trips to the post office. That's **\$20,904 per year** on a part-time pace. Scale to 40 bundles/month and you're at **\$41,808 — more than most 9-to-5s in your city.**

And remember: you set your own retail prices. Many BSP members price above market because their branding and client experience justify it. Every dollar above the numbers on this page is extra margin for you.

READY TO SEE THE FULL CATALOG?

Your next step is free

This guide covers just two of our most popular textures. Inside BSP, members get wholesale access to our complete raw hair lineup — plus branding, website templates, marketing automations, and 1-on-1 support to launch.
